

National Eradication Program 2009-10

Data sheet

Date:

Location- Name of site, State:

GPS coordinates or Grid Map Reference (if possible):

Type of habitat eg manmade dam, remnant bushland etc:

Number of volunteers:

Total time spent collecting:

Toad tally

	Male	Female	TOTAL
Adult			0
Juvenile			0
		GRAND TOTAL	0

(Minimum information we require is the number of toads caught, do not stress if you cant get all information here).

Key to sexes and sizes:

Males= yellowish skin, rough like sandpaper.

Females = creamy often blotchy, smooth skin.

Adults = bigger than 90mm snout to vent length.

Juveniles= smaller than 60mm snout to vent length. Juvenile sex is hard to determine so just record total numbers.

If size is 60mm-90mm it is a sub-adult and should be recorded as an adult.

Please return to the Stop the Toad Foundation by either;
