FROG n' TOAD TRAVELLER'S KIT

All you need to know .. to get involved

WA is the first state to seriously attempt to prevent a cane toad invasion.

We need **YOU** to help protect our unique animals, economies and toad-free lifestyle.

The Stop the Toad Foundation encourages activities that will prevent the movement of cane toads across the NT towards WA.

Please travel **TOAD AWARE**—and why not include toad control while doing the things you like - camping, fishing, bushwalking .

Make a difference. Here's how.
